Have dealt with a lot of pest companies over the years but none to even close to this one. Gilberto is absolutely awesome. Friendly, easy going and knows what he is doing. He is always punctual, and ready to start by the appointment time. Can't say enough about his service and the results we get. Gilberto should get a big ATTAHOY! He represents the company so well!!!

I called AllPest because I noticed some rodent droppings in my garage. They were very booked up, but were able to get me on the schedule the next day with a rep coming after hours even to meet my irregular schedule. Their technician Sam G. showed up on time and was very professional and kind. Observed the house and diagnosed the issue. He was very knowledgeable and considerate to my family's needs. They did the work the following week, sealing off the various exposed areas of my garage and roof. He placed traps throughout the garage and attic and came back often to inspect the traps. What we thought were rats or mice ended up being something bigger as the traps were tripped, but nothing but a talon remained. Sam believed it was a squirrel and went back to his office, retrieved a larger trap, and set it up - we successfully caught it and we let it go outside. Sam could have said, "we caught your problem, we are done.", but instead he reset the trap and kept coming to check on it routinely throughout the following weeks. I really appreciate his hard work and effort to making my problem a priority to him. I know exactly who I will call for any and all pest issues - Sam at AllPest.

Highly recommend this business! Great service, from when their company representative answered the phone all the way to coming to the house! Very professional and took time to explain the answers to questions I had asked. I had tried several times treating my home with general pesticides and had little luck!! Called All Pest Solutions and boom problems solved! I called on the cake was the competitive price! I definitely got my money's worth! Thanks yall! Also enjoyed supporting a family owned business with fantastic integrity, character and Morales!

I was remodeling my home and discovered some unwanted termites! Called All Pest Solutions and they took care of me the same day so that my construction guys could get on with their work. Wendell was awesome as worked with my needs and the extremely sweet lady that answered my phone call was efficient and called me back just like she said she would. Highly recommend!

In my past four years of managing Country Friends Veterinary Clinic, I have worked with Jeff from All Pest. I used to manage a pest company and know the business well- so imagine Jeff having an amazing experience- which I have! Jeff (0707158) is a friendly, reliable, gracious, and works hard. With people and pets in the yard we can't have ant hills cropping up and we don't... NOT ONE in my four years! As pesky as paper wasps and spiders can be... we just don't have any problems. It's so great knowing that Jeff cares about our concerns and makes sure that we are never bothered by pests and we are so grateful!!!! (and our rate has stayed the same, too. Can't beat it! :D

I called ALL PEST SOLUTIONS to come help us with some issues with some type of insect flying around our front yard. They came right out and Jeff was very knowledgeable! He sprayed the front and back and we noticed a difference instantly! He was very professional and on time. He called that morning and then when he was 30 minutes away! We loved the service he gave us! I would recommend this company and will use them in the future. Mike and Rita Ferris/Rockwall, Texas

Great company, I have had them take care of my pest control needs for over 10 years. Their rodent exclusion system is top notch. I have peace of mind that there will be no animals chewing on electrical wires in my attic.

Jacob and his team did a great job! I had squirrels in my attic and Jacob found 10 openings that required covering. These were on a steep roof to boot and he made custom metal flashing caps and painted them to match the house. Great job and I highly recommend you give Jacob and All Pest a call. Todd Estes

Thank you All Pests for taking caring of my home and local business. I never have to worry about the seasonal creepy crawlers because you are always on top of it with the highest quality and best interest of my family and business! Denny has been the greatest technician. The family loves the little notes he leaves on the door. Highly recommend!

You absolutely won't regret it! Sam delivers top notch service to his home and is basically now our friend. He knows what he's doing, isn't going to beat around the bush or try and sell you something you don't need, and goes above and beyond. We didn't know what we were getting into when we moved here but we're thankful for All Pest Solutions!

Just like the tagline says, I had Pests, so I called the Best! I had termites AND squirrels! Wendell came out to inspect the house for termites and Jacob came out for the critters. Both were very thorough in their inspection and explaining what exactly my problems were and the solutions to fix them. They came out at separate times to treat for termites and fix the roof eaves where squirrels were getting in. They painted the sheet metal to match the house - looks great!

It's been two months and haven't heard a peep in my attic OR seen any termite dirt piles, so I'd say we're all good! Thanks All Pest Solutions!
